1 Introduction

The Department of Housing and Community Development (DHCD) administers a variety of State and federal programs that finance the development of affordable rental housing. These programs include, but are not limited to, the Low Income Housing Tax Credit (LIHTC), the Rental Housing Program (RHP), Rental Housing Works (RHW), the Partnership Rental Housing Program (PRHP), the HOME Investment Partnerships Program (HOME), and the Multifamily Bond Program (MBP).

While there are variations between these programs based on the underlying source of funds, State and federal requirements applicable to specific funding sources, and State policy goals, DHCD seeks to align many of the administrative processes that accompany these programs. This alignment makes these programs more user-friendly and contributes to operating efficiencies for DHCD and its partners, including owners, investors, and managers of properties financed by DHCD resources.

This document is one of three (3) publications that specifically address policies and procedures for disbursing and tracking funding for affordable rental housing developments financed by DHCD. The three (3) documents are:

- 1) Guide to Project Development Costs
- 2) Guide to Draw Procedures

3) Cost Certification Guide

Together, these documents were developed to provide borrowers/mortgagors, general contractors, and certified public accountants with important information to assist them in the preparation and submission of <u>draw requests</u> and <u>cost certifications</u> following completion of multifamily rental projects. These documents serve as a complement to the Multifamily Rental Financing Program Guide (the "Guide") and Qualified Allocation Plan for Low Income Housing Tax Credits (the "QAP"). To the extent there is any conflict between these documents and the QAP and Guide, the QAP and Guide shall prevail. Additionally, these documents complement but are not a substitute for federal and state laws and regulations.

Because of the complexity of the rules governing DHCD's multifamily rental financing programs, all participants are urged to seek appropriate legal and accounting advice regarding construction-related matters, draw requests, cost certifications and other matters associated with the disbursement of DHCD funding. Borrowers/mortgagors and general contractors may engage accounting and legal representation of their

choice without DHCD approval, and are urged to do so at an early stage in the processing/underwriting of DHCD financing.

All questions regarding this document should be directed to Alvin Lawson, Multifamily Construction Finance Team Leader via email at Alvin.Lawson@Maryland.gov, via phone at 301-429-7718, or by mail to DHCD at 7800 Harkins Road, Lanham MD 20706.

2 Definitions

The Department classifies project development costs into seven (7) primary categories which are listed below. These categories are used in the Department's underwriting and financial review, and various Departmental forms (i.e. Forms, 202, 406 and 101) are organized accordingly. The 7 categories are:

- 1. Construction or Rehabilitation Costs
- 2. Fees Related to Construction or Rehabilitation
- 3. Financing Fees and Charges
- 4. Acquisition Costs
- 5. Developer's Fee
- 6. Syndication Related Costs
- 7. Guarantees and Reserves

Definitions of key terms used throughout this document are provided below.

2.1 Change Order

A "hard cost" change order is any amendment or modification of the Construction Contract Documents approved by DHCD and occurring after the Initial Closing. A "soft cost" change order amends or modifies any other item in the approved development budget.

2.2 Completion Date

The Completion Date specified in the Construction Contract.

2.3 Cut-off Date

One Hundred Twenty (120) days from Substantial Completion.

2.4 Draw Request

A request for disbursement of the Loan proceeds and/or any other funds the Project prepared by Borrower and delivered to CDA.

2.5 Draw Schedule

A schedule prepared by Borrower and delivered to CDA at initial closing showing the amount Borrower anticipates drawing and the anticipated date of each draw during the Construction of the Project.

2.6 Field Progress Meeting

Monthly meetings among CDA, the Borrower, General Contractor, Architect and such other parties.

2.7 Final Closing

The date on which the final principal amount of the Loan(s) is finally accepted and approved by DHCD.

2.8 Initial Closing

The date of the initial closing of the Loan(s).

2.9 Loan Documents

The Note, the Deed of Trust, the Regulatory Agreement, and any other instrument or agreement evidencing or securing the CDA/DHCD Loan(s); including any certificate or other document executed and delivered in connection with the Loan.

2.10 Note

The Borrower's Deed of Trust Note to CDA/DHCD in the principal amount of the CDA/DHCD Loan, secured by the Deed of Trust, evidencing Borrower's obligation to repay the CDA/DHCD Loan and specifying the terms of repayment.

2.11 Soft-Cost

"Fees Related to Construction or Rehabilitation" and "Financing Fees and Charges."

2.12 Substantial Completion

The date when (a) the rehabilitation or construction and equipping of the Project has been fully completed in a good and workmanlike manner and according to the Construction Contract Documents, in full compliance with all applicable Legal Requirements of any Legal Authority, except for punch list items approved by DHCD; (b) all certificates of use and occupancy have been issued by all appropriate Legal Authorities for every unit in the Project; and (c) the Inspecting Consultant or Architect has issued an AIA Form G-704 (Architect's Certificate of Substantial Completion).

3 Cost Certification Requirements

3.1 Purpose

This Guide sets forth (a) the standards to be followed in the preparation of Cost Certifications and in the conduct of the audits, and (b) the minimum scope of audit and report format acceptable to DHCD. It does not provide detailed audit procedures nor is it intended to supplant the Certified Public Accountant's (CPA's) judgment as to the work required. This Guide is applicable to audits of mortgagors', contractors', and subcontractors' cost certifications as required for multi-family housing developments financed by DHCD.

The purpose of the cost certification is to establish the total costs incurred by the mortgagor and the contractor to complete the project so that DHCD may determine at Final Closing the total development cost of the project, the final principal amount of the DHCD loan(s), and the mortgagor's equity in the development.

Adequate records must be maintained for three years following Substantial Completion for the purpose of verifying costs. All books and records, contracts, invoices, receiving reports, particulars of material, labor and equipment entering into the construction of the project, and other records appropriate to such accounts must be made available to DHCD for inspection and copying upon request.

3.2 Cost Certification

Within 180 days of Substantial Completion (60 days past cut-off date), the Borrower, the General Contractor, and all subcontractors with an identity of interest to the Borrower or the General Contractor shall submit to CDA a cost certification of the actual costs for construction and development of the Project. The cost certification shall be performed by a CPA. DHCD may, at its option, audit and inspect the Borrower's and General Contractor's books and records for the purpose of verifying the Borrower's certification of costs.

Consistent with Section 42(m)(2) of the Internal Revenue Code and industry best practices, DHCD limits the award of LIHTC and other State controlled resources to the funding gap necessary to make a transaction viable. Even if a specific line item is not being paid with LIHTC equity or DHCD funds, any excessive cost, regardless of the source of financing, increases the gap and affects the public subsidy needed by a transaction. As a result, DHCD reserves the right to require a justification of any development cost line item.

3.3 Audit Authorization

The CPA must be independent within the meaning of the code of professional ethics of the American Institute of Certified Public Accountants (AICPA). The audit engagement letter or arrangement for audit must provide that the CPA shall satisfy the requirements of DHCD and all other lenders.

The audit engagement letter or arrangement for audit between the CPA and mortgagor, contractors and any subcontractors required to cost certify must allow duly authorized agents of DHCD to examine the CPA's working papers supporting the required Cost Certifications.

Where Government Auditing Standards apply, the CPA must meet the auditor qualifications of Auditing Standards, including the qualifications of Independence and continuing professional education.

3.4 Audit Scope and Coverage

The objectives of the audit are to determine whether the project costs incurred are eligible under the terms of the applicable contracts and in accordance with DHCD policies as identified in this Guide.

The audit work must be sufficiently comprehensive in scope to permit the expression of an opinion on the certificates of actual cost and the required financial statements, and must be performed in accordance with generally accepted auditing standards and audit requirements. The opinion submitted by the CPA should be an unqualified opinion addressed to DHCD. If either a qualified or adverse opinion is expressed or if an opinion is disclaimed, such opinion shall not be acceptable to DHCD unless the reasons therefore are fully explained in the audit report to the satisfaction of DHCD and unless DHCD is otherwise satisfied that the certificates of actual cost and the financial statements comply with this Guide.

Sufficient audit work must be performed for the CPA to conclude whether the costs incurred were eligible under the terms of the contracts and this guide and are reasonable, ordinary, and necessary expenses and directly related to the construction and development of the project.

3.5 Audit Standards

The audit work must be performed in accordance with auditing standards established by the General Accounting Office in its publication, <u>Standards for Audit of Governmental Organizations</u>, <u>Programs</u>, <u>Activities and Functions</u> as such standards pertain to financial and compliance examinations and the generally accepted auditing standards established by the AICPA.

The certification of actual costs must be based on an audit made in accordance with generally accepted auditing standards and include tests of the accounting records and such other auditing procedures considered necessary by the auditor.

3.6 Bond Financing

In the event that the project is financed in whole or in part with the proceeds of tax exempt bonds issued pursuant to Section 142 of the IRC, certain restrictions and limitations apply with respect to the costs or the portions thereof which are includable in the total development cost. Such restrictions and limitations shall control in the event of any conflict or inconsistency with any other provisions of this Guide.

3.7 General

The CPA may encounter instances of apparent fraudulent reports or statements to DHCD concerning the project, or irregularities such as defalcations related to the project, the payment of gratuities to federal, state or city employees, or statements otherwise in violation of applicable federal or State law. In such instances, the CPA shall advise the highest possible official of the mortgagor or contractor (or subcontractor) entity of the possible irregularity, and shall obtain documented assurance, prior to issuance of the audit report, that the mortgagor or contractor as appropriate has fully disclosed the particulars of the possible irregularity to DHCD, and shall confirm with DHCD that such disclosure has been made.

4 Format of Cost Certification Package

4.1 Cost Certification Packet

A complete packet consists of the following:

- A. Mortgagor's Cost Certification prepared by the CPA, which includes:
 - 1. Independent Auditor's Report/Cover Letter
 - 2. CDA Form 101: Mortgagor's Certification of Actual Cost (See Appendix B)
 - 3. A detailed schedule of Costs to support CDA Form 101
 - 4. Balance Sheet
 - 5. Operating Statement
- B. Independent Auditor's Report/Calculation of LIHTC, if applicable
- C. Contractor's Cost Certification
- D. Identity of Interest Subcontractor's Cost Certification, if applicable (See section 7 for more information)

All of the above items must be audited and/or prepared by an independent CPA.

A sample Mortgagor's Cost Certification is included in Appendix C for reference. A sample Independent Auditor's Report is included in Appendix D for reference.

4.2 Reference Materials

The following documents should be reviewed by the CPA in conjunction with the cost certification review:

- 1. CDA Form 406, Draw Request and Supporting Documentation
- 2. CDA Form 202, Financial Analysis
- 3. CDA Form 212, Summary Construction Cost Estimate
- 4. CDA Form 215, Detailed Construction Cost Estimate
- 5. Construction Contract
- 6. CDA Form 404, Request for Construction changes (approved Change Orders)
- 7. Commitment Letter(s) for DHCD Loan(s)
- 8. Building Loan Agreement(s) for DHCD Loan(s)
- 9. Regulatory Agreement(s) for DHCD Loan(s)
- 10. Owner/Architect Agreement
- 11. Multifamily Rental Financing Program Guide
- 12. Any other documents considered relevant by the CPA

4.3 Eligible Costs

Eligible costs are those approved costs that have been or will be incurred within one hundred twenty (120) days after the date of Substantial Completion. These costs are determined after

deduction of all kickbacks, rebates, adjustments, discounts, and promotional or advertising allowances.

The eligible costs may include all costs paid in cash under the terms of the construction contract. The contract price may be amended for approval change orders, and reduced for liquidated damages as required by the contract. In addition, the eligible costs may include various Fees, Finance and Carrying Charges, and other cost categories as identified in the CDA Form 202, Financial Analysis and CDA Form 406, as well as, the Form of Draw Requests. The various cost categories are controlled by fee schedules, contracts, and in some cases, are based solely on actual cost.

The eligible cost categories are defined more specifically in DHCD's <u>Guide to Project</u> <u>Development Costs</u>. Draw procedure requests are discussed in detail in DHCD's <u>Guide to Draw</u> Procedures.

5 Contractor's Cost Certification

The Contractor's Cost Certification shall include all costs incurred in the performance of the construction contract that have been paid for in cash by the contractor or will be paid for within one hundred twenty (120) days from Substantial Completion. The allowable costs include trade items, general requirements, builder's overhead, builder's profit, bond premium, and miscellaneous labor and materials. All costs are reported for actual amounts paid or to be paid exclusive of kickbacks, rebates, credits, trade or cash discounts, or other similar payments received or to be received by the contractor.

5.1 Requirements

The Contractor's cost certification packet consists of the Contractor's Certificate of Actual Cost, the auditor's statement, and the schedule of payees.

The Contractor's Certificate of Actual Cost is used to summarize trade item costs within the construction contract. The various trade items are identical to those that comprised the Detail Cost Estimate and Trade Payment Breakdown as approved during the underwriting phase (see CDA Forms 212 and 215). The CPA must enter the total costs for each trade item paid or to be paid in cash up to one hundred twenty (120) days from Substantial Completion, which will be considered the cut-off date for costs permitted by CDA. The CPA must prepare a schedule of payees for each trade item. The schedule must summarize the actual costs paid or to be paid for labor, materials, and subcontracts that compose the total cost for a particular line item.

The CPA's statement or certification must represent that appropriate examinations of the books and records have been made which will allow the CPA to form an independent opinion as to whether the costs are reasonable and necessary.

The statement must indicate that the examination was made in accordance with generally accepted auditing standards and procedures considered necessary.

The statement must state the amounts that fairly represent the actual cost, and that the amounts paid and to be paid are stated as of a particular cut-off date.

The auditor must state that there is no financial interest existing between them and the contractor other than the practice of their profession.

The certified costs will be reviewed by DHCD to determine that they are reasonable and necessary in terms of the contract documents and conform to DHCD's lending practices.

6 Mortgagor's Cost Certification

The mortgagor's cost certification shall include all costs incurred in the development of the project that have been paid for in cash by the mortgagor or will be paid for up to one hundred twenty (120) days from Substantial Completion. All costs are reported for actual amounts paid or to be paid exclusive of kickbacks, rebates, credits, trade or cash discounts, or other similar payments made to the mortgagor, or any related financial interest of the mortgagor.

6.1 Requirements

The mortgagor's cost certification package consists of the items listed in Section 4.1 above.

The CPA's statement or certification must represent that appropriate examinations of the books and records have been made which will allow the CPA to form an independent opinion as to whether the costs are reasonable and necessary.

The statement must indicate that the examination was made in accordance with generally accepted auditing standards and procedures considered necessary.

The statement must indicate the amounts that fairly represent the actual cost and that the amounts paid and to be paid are of a particular cut-off date.

The auditor must state that there is no financial interest existing between them and the mortgagor other than the practice of their profession.

The certified costs will be reviewed by DHCD to determine that they are reasonable and necessary in terms of the contract documents and conform to DHCD's lending practices.

6.2 Mortgagor's Certificate of Actual Cost

The CDA Form 101, Mortgagor's Certificate of Actual Cost, is used to summarize the various fees, financing, and carrying charges associated with the development; in addition to the construction costs and other costs relevant to developing the project. The format utilizes the same cost categories as the CDA Form 202 and 406. The CPA must enter the actual total costs for each line item paid or to be paid within one hundred twenty (120) days from Substantial Completion. The CPA must provide a schedule of payees for each cost category. The schedule must summarize the cost breakdowns for each category.

6.3 Balance Sheet

An audited Balance Sheet for the mortgagor entity must be submitted.

The Balance Sheet must state short term liabilities which must be reconciled with the payables shown in CDA Form 101: Mortgagor's Certificate of Actual Cost. The mortgage payable must agree with the amount of advances.

6.4 Operating Statement

If there has been occupancy during the construction period, an audited operating statement is required. All income generated from the project's operations including residential and commercial income must be reported on an accrual basis.

The period to be covered is from first occupancy to no more than one hundred twenty (120) days after Substantial Completion. In rehabilitation projects where occupancy is continuous, the income stream would start at Initial Closing and close at no more than one hundred twenty (120) days after Substantial Completion.

The Operating Statement must show the actual dates reflected and it must identify all sources of income such as residential, commercial laundry facilities, and other miscellaneous income.

Normal operating expenses should be categorized as Administrative, Maintenance, and Utilities in accordance with the CDA Form 202, Financial Analysis. Any expenses attributable to debt service, such as interest, taxes, and/or property insurance, and mortgage insurance premium are not allowable as an operating expense. In addition, depreciation cannot be treated as an expense and is not to be included in the statement.

Any net interim income is treated as a source of funds in the Mortgagor's Cost Certification.

7 Identity of Interest Relationships

7.1 Definition

An identity of interest relationship exists where: (a) any financial interest exists between two or more entities; (b) an officer or director of one entity is also an officer or director of another entity; (c) one entity advances funds to another entity; (d) there exists any side deals, agreements, or contracts other than those contained in the loan documents; (e) a family relationship exists between the entities.

7.2 Approval for Identity of Interest Subcontractors

If there is an identity of interest between the mortgagor and general contractor, then any subcontractor, supplier, or lessor having an identity of interest with the general contractor is considered as having an identity of interest with the mortgagor.

Identity of interest subcontractors must seek written approval from CDA during the underwriting phase prior to initial closing. For identity of interest subcontractors to be acceptable for cost certification the following criteria must be satisfied:

- (a) The subcontract approval must be obtained in writing from CDA, including any percentages or amounts for profit and overhead. There must be a separate contract for profit and overhead. There must be a separate contract for each trade. The subcontract must clearly identity the work to be performed and must be on a cost-plus basis with a maximum upset price;
- **(b)** The subcontractor must demonstrate experience and capability in the appropriate trade;
- **(c)** The subcontracts must not be higher than the best prices which could be obtained from outside sources, if available. When other sources are not available, the price must not exceed that which is considered reasonable under the circumstances, in which case the price is judged as if the builder performed the work for the actual cost, and a reasonable fee was added;
- **(d)** The subcontractor must demonstrate that it operates as a subcontractor according to the customs of the particular trade. It must show control of its labor force, payroll maintenance, use of tools and equipment. It cannot merely be a paper conduit for performance by others;
- **(e)** All identity of interest subcontractors must submit a cost certification for CDA's review and approval in the same format used by the General Contractor.

7.3 Eligible Costs for Identity of Interest Relationship

The approved cost for identity of interest contracts is the lesser of (1) the actual cost of the subcontract plus an approved percentage allowance for profit and overhead, or (2) the maximum contract upset price as approved by CDA. No profit and overhead for identity of interest subcontract will be permitted without prior written approval from CDA. Any costs for equipment owned by identity of interest subcontractors may not be included as an actual cost of the subcontract.

All identity of interest material suppliers and equipment lessors must certify to their costs in the same manner.

The CPA performing the audit is required to notify CDA if he becomes aware of any identity of interest relationship that was not previously disclosed. Any such relationship must be disclosed in the Mortgagor's and/or Contractor's Cost Certifications.

COST CERTIFICATION GUIDE APPENDIX -

Appendix C: Example of Mortgagor's Cost Certification

CDA Project No.: XX.XXX.XXXX

Mortgagor's Certificate of Actual Costs and Independent Auditor's Report

_____, 20XX

Independent Auditor's Report

CDA PROJECT NO.: XX.XXX.XXXX PROJECT NAME: LOCATION:
To the PartnersLLLP
Report on the Mortgagor's Certificate of Actual Costs and Financial Statements
We have audited the accompanying Mortgagor's Certificate of Actual Costs (CDA Form 101) as of, 20XX, of LLLP for the development of, CDA Project No.: XX.XXX.XXXX, the schedule to support CDA Form
101, the schedule of noncertifiable development costs and the schedule of sources and uses as of, 20XX (the Schedules), and the statement of assets, liabilities and partners' equity as of, 20XX and the related statement of revenue and expenses (the Financial Statements) for the period from, 20XX (date of initial residential occupancy) through, 20XX.
Management's Responsibility for the Mortgagor's Certificate of Actual Costs and Financial Statements
The Mortgagor's Certificate of Actual Costs, the Financial Statements and the Schedules are the responsibility of the management of LLLP. Management is also responsible for presentation of the Financial Statements and Schedules in accordance with the basis of accounting described below. Our responsibility is to express an opinion on the Mortgagor's Certificate of Actual Costs, the Financial Statements and the Schedules based on our audit.
Auditor's Responsibility
We conducted our audit in accordance with auditing standards generally

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the accompanying Mortgagor's Certificate of Actual Costs, the Financial Statements and the Schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the accompanying Mortgagor's Certificate of Actual Costs, the Financial Statements and the Schedules. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall Financial Statements and Schedules presentation. We believe that our audit provides a reasonable basis for our opinion.

Opinion
In our opinion, the Mortgagor's Certificate of Actual Costs, the Financial Statements and the Schedules referred to above present fairly, in all material respects, the actual costs of LLLP through, 20XX, the financial position as of, 20XX, and the results of its operations for the period, 20XX (date of initial residential occupancy) through, 20XX on the basis of accounting described below.
Basis of Accounting
The Mortgagor's Certificate of Actual Costs, the Financial Statements and the Schedules have been prepared on the basis of accounting and reporting practices prescribed by the Maryland Department of Housing and Community Development (DHCD) and Community Development Administration (CDA). These prescribed practices are a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.
This report is intended solely for the information and use of management and for filing with the lender and DHCD and is not intended to be and should not be used by anyone other than these specified parties.
We certify that we have no financial interest in the mortgagor other than in the practice of our profession and have met the licensing requirements of the State of Maryland.
, Maryland REPORT DATE

CDA Project No.: XX.XXX.XXXX

Mortgagor's Certification

I certify that I have examined the Mortgagor's Certificate of Actual Costs (CDA
Form 101), the statement of assets, liabilities and partners' equity, the schedule to
support CDA Form 101 and the schedule of noncertifiable development costs as of
, 20XX, and the related statement of revenue and expenses for the period
from, 20XX (date of initial residential occupancy) through,
20XX, and that to the best of my knowledge and belief, the Mortgagor's Certificate of
Actual Costs (CDA Form 101), the statement of assets, liabilities and partners' equity,
the schedule to support CDA Form 101, the schedule of noncertifiable development
costs and the statement of revenue and expenses are correctly stated therein.

The undersigned hereby certifies, that, except as noted on the back of this form, there has not been and is not now any identity of interest between mortgagor and general contractor and/or any subcontractors, material supplier or equipment lessors. It is further certified that, except as noted, there are not and have not been any such relationships between the sponsor(s) of this project and general contractor and/or subcontractor, material supplier or equipment lessor.

All references to "Identity of Interest" are herein made in the context of the definition printed on the back of this form, which has been read by the undersigned.

NOTICE

Section 266DD-7, Article 41, Annotated Code of Maryland provides in part:

A person who knowingly makes or causes false statements for the purpose of influencing the action of the Administration "... is subject to a fine not exceeding \$50,000 or imprisonment not exceeding five years or both."

Identity of Interest between the mortgagor and/or sponsor as parties of the first part and general contractors, subcontractors, material suppliers or equipment lessors as parties of the second part will be construed as existing under any of the following conditions:

- When there is any financial interest of the party of the first part in the party of the second part;
- When one or more officers, directors or stockholders of the party of the first part is also an
 officer, director or stockholder of the party of the second part;
- Where any officer, director or stockholder of the party of the first part has any financial interest whatsoever in the party of the second part;
- When the party of the second part advances any funds to the party of the first part;
- When the party of the second part promises and pays on behalf of the party of the first part the cost of any architectural services or engineering services other than those of a surveyor, general superintendent or engineer employed by a general contractor in connection with his/her or its obligations under the construction contract;
- When the party of the second part takes stock or any interest in the party of the first part as part of the consideration to be paid them;
- When there exists or come into being any side deals, agreements, contracts or undertakings entered into or contemplated, thereby altering, amending or canceling any of the required closing documents except as approved by the Commissioner.

The following identities of interest exist (IF NONE, SO STATE):

NONE

The amount of "Potential Additional Equity - Upward Basis Adjuster" included in Sources is based upon the low-income housing tax credits on qualified basis. The contribution of this amount to the partnership by the investor limited partner is contingentupon the receipt of signed Form 8609s from DHCD with total credits of \$XX and the terms of the partnership agreement. The partnership agreement currently provides for a ceiling in the upward adjuster that the investor limited partner will contribute to the partnership in the amount of \$XX. The investor limited partner has discretion to waive this ceiling and agree to an upward adjuster as shown in the Sources above in the amount of \$XX. However, the investor limited partner has not yet decided whether it will waive the upward adjuster ceiling amount.

Independent Auditor's Report	3
Schedule of Sources and Uses of Funds, Calculation of Eligible Low-Income Housing Tax Credit Basis and Annual Tax Credit, and the Calculation of 50% Test	5

Independent Auditor's Report

To the Partners

We have audited the accompanying Schedule of Sources and Uses of Funds, Calculation of Eligible Low-Income Housing Tax Credit Basis and Annual Tax Credit and the Calculation of 50% Test (the Schedule) of the Partnership) related to the development of as of

Management's Responsibility for the Schedule

Management is responsible for the preparation and fair presentation of the Schedule in accordance with the requirements specified by the Maryland Department of Housing and Community Development (DHCD). Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that is free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule is free of material misstatement.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedule. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Schedule presents fairly, in all material respects, the sources and uses of funds, eligible basis and annual tax credit, and the calculation of 50% test of the Partnership for the Project as of on the basis of accounting described below.

Basis of Accounting

We draw attention to the requirements specified by DHCD, which require the Partnership to account for total costs and eligible basis costs in accordance with the provisions of DHCD's qualified allocation place, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Restriction on Use

This report is intended solely for the information and use of management and the partners and for filing with DHCD and is not intended to be and should not be used by anyone other than these specified parties.
